Digital Product v1.0
Your Name / Your Brand

INTRODUCTION

Why This System Works

Most content creators spend hours staring at a blank screen, creating the same piece of content from scratch every single time. This system eliminates that waste by showing you how to extract maximum value from every piece of content you create.

The Content Repurposing Principle

Every piece of content you create contains: insights, stories, tips, data points, quotes, and lessons. These elements can be reshaped and redeployed across multiple platforms and formats without starting from zero.

What You Get With This System

Content Repurposing Map

A visual guide showing how to transform one piece into 20+ assets

AI Prompt Templates

Ready-to-use prompts for captions, hooks, and scripts

Content Templates

Carousel, newsletter, and video script frameworks

Platform Checklist

Step-by-step posting guide for each platform

Who This Is For

Content creators, coaches, consultants, and business owners who want to maximize their content investment without spending 40+ hours per week creating. Works with videos, podcasts, blog posts, or even a single idea.

Content Repurposing Map

Use this map to identify all the content assets you can extract from one source piece.

Output Assets by Category

Video Content

- Short-form video (60 seconds)
- Short-form video (30 seconds)
- Short-form video (15 seconds)
- YouTube Short
- Instagram Reel
- TikTok clip
- LinkedIn video
- Teaser trailer

Written Content

- Carousel post (8-10 slides)
- LinkedIn article
- Email newsletter
- Blog post rewrite
- Twitter thread
- Facebook post
- Community post

Pro Tip

Start with your longest-form content (video, podcast, or training) and work your way down. The key is extracting the "nuggets" - specific insights, quotes, and stories that can stand alone.

Long-Form to Short-Form Workflow

Follow this 4-step extraction process to pull maximum value from your long-form content.

1 Transcript & Highlight

Use a transcription tool (Otter.ai, Rev, or YouTube captions) to get the full text. Then watch and mark moments that stood out: surprising statements, emotional reactions, practical tips, or data points.

🕒 15 minutes

2 Nugget Extraction

From your highlights, identify 3-5 "nuggets" - self-contained insights that can be understood without the full context. Each nugget becomes the seed for a piece of content.

🕒 10 minutes

3 Format Matching

For each nugget, select the best format(s): video clip, carousel, quote graphic, email, thread. Consider which platform each format serves best.

🕒 5 minutes

4 AI-Assisted Production

Use the AI prompts in this guide to quickly generate variations and adaptations. Review, edit, and post. Batch similar tasks together for maximum efficiency.

🕒 60 minutes

Extraction Example

Original content: 45-minute YouTube video about "How to Price Your Services."

Nuggets extracted: (1) The 3 pricing tiers framework, (2) A story about losing a \$10K client, (3) The "anchoring technique" psychology, (4) Common pricing

Each nugget becomes: 1 short video, 1 carousel, 1 email, 1 social post = 16 pieces from 1 video.

AI Caption Prompt

Use this prompt with ChatGPT, Claude, or any AI assistant to generate platform-optimized captions in seconds.

▣ Master Caption Prompt

You are a social media caption expert. Write a compelling [PLATFORM] caption based on the following content:

SOURCE CONTENT:

[CUT AND PASTE YOUR NUGGET, TRANSCRIPT EXCERPT, OR KEY INSIGHT HERE]

CAPTION REQUIREMENTS:

- Platform: [Instagram/TikTok/LinkedIn/Twitter]
- Target audience: [DESCRIBE YOUR AUDIENCE]
- Tone: [Professional/Educational/Entertaining/Conversational]
- Length: [SHORT (under 125 chars) / MEDIUM (125-300) / LONG (300+)]
- Include a clear call-to-action
- Use formatting: line breaks, emojis, and emphasis where appropriate
- Include 3-5 relevant hashtags at the end

CAPTION STYLE:

[PREFERRED STYLE - e.g., " conversational like talking to a friend", " authoritative like a mentor", " casual like texting a colleague"]

OUTPUT FORMAT:

Caption text

CTA: [specific call to action]

Hashtags: [formatted as #Keyword or on separate lines]

Platform-Specific Variations

Platform	Max Length	Best Tone	Key Feature
Instagram	2,200 chars	Story-driven	Line breaks, first 125 chars crucial
LinkedIn	3,000 chars	Professional, insightful	Add value, no clickbait
TikTok	150 chars	Casual, hook-first	Start with a hook, no links
Twitter/X	280 chars	Direct, punchy	One main idea per tweet

Hook Rewrite Prompt

Your hook determines whether people stop scrolling. Use this prompt to generate 10 different hooks for the same content.

□ Hook Generation Prompt

Generate 10 different opening hooks for a piece of content about: [INSERT YOUR MAIN TOPIC OR NUGGET]

For each hook, use a different technique from this list:

1. Pattern interrupt - Something unexpected
2. Question - Ask something that makes them think
3. Bold statement - Make a controversial claim
4. Story start - Begin with a scene or moment
5. Stat/Fact - Lead with surprising data
6. "Nobody talks about" - Reveal hidden truth
7. Contrast - Show before/after or problem/solution
8. Direct address - Talk directly to the reader
9. Stakes - Show what they might lose
10. Curiosity gap - Leave them wanting more

FORMAT:

1. [Technique Name]: [Hook text] → [Why it works]
2. [Technique Name]: [Hook text] → [Why it works]
- ... (continue for all 10)

Keep each hook under 15 words. Make them scroll-stopping.

Hook Testing Formula

Test your hooks by asking: "Would I stop scrolling and read more?" If the answer isn't an immediate "yes," keep iterating. The best hooks create an emotional response or promise a specific benefit within the first 2 seconds.

Hook Formulas by Platform

Video Hooks

- "In the next 60 seconds, you'll learn..."
- "I made [mistake] so you don't have to..."
- "The #1 reason people fail at [topic]..."
- "Let me show you exactly how I [result]..."

Text Hooks

- "Here's the uncomfortable truth about..."
- "Stop doing [thing] if you want [result]..."
- "Most [profession] are doing [wrong thing]..."
- "The simplest way to [benefit] is..."

Carousel Outline Template

Use this framework to create a 10-slide carousel that teaches something or tells a story.

□ Carousel Structure

Topic:

[Write your main topic here]

Target Audience:

[Who is this for?]

Main Promise:

[What will they learn or gain?]

10-Slide Carousel Framework

Slide	Purpose	Content
1	Hook	Start with a bold statement or question that creates curiosity
2	Tease	Give a preview of what's coming - make a promise
3	Setup	Establish the problem or context
4-8	Content	Deliver your main points (1 point per slide)
9	CTA	Call to action - what should they do next?
10	Bio	Profile info + secondary CTA (follow, save, link)

Carousel Design Tips

- Use consistent fonts and colors throughout
- Each slide should convey ONE idea
- Use 3-5 words max on each point

- Include visuals or icons to break up text
- Slide 1 should stop the scroll; Slide 10 should drive action

Email Newsletter Template

Transform your content into a weekly newsletter that builds connection and drives engagement.

□ Newsletter Structure

SUBJECT LINE OPTIONS:

[Generate 3 options: question, stat-based, curiosity]

PREVIEW TEXT:

[One sentence that makes them want to open]

GREETING

[Personal opener - reference something relevant]

HOOK PARAGRAPH

[Why you're writing this - connect to reader's situation]

MAIN CONTENT

[Your key insight, lesson, or story]

KEY TAKEAWAY

[One sentence that summarizes the main point]

CALL TO ACTION

[What you want them to do - respond, click, share]

SIGN OFF

[Casual sign-off + brief bio]

P.S.

[Secondary offer or ask]

Newsletter Formulas

The "I Learned" Letter

Share something you learned recently. What was it? How will you use it? Why should they care?

The "Quick Win"

Give one actionable tip they can implement today. Make it simple, specific, and valuable.

The "Hot Take"

Share a controversial opinion. Explain your reasoning. Invite debate.

The "Behind the Scenes"

Show your process, mistakes, or plans. People love seeing the human side.

Short Video Script Template

Use this framework to create compelling 30-60 second videos that convert viewers into followers.

□ Short Video Script

VIDEO LENGTH: [30 / 60 / 90] seconds

HOOK (0-3 sec)

[One sentence that makes them stop. Try: "The #1 mistake [audience] make...", "I spent \$X learning this...", or a direct question]

CONTEXT (3-10 sec)

[Give just enough background so they understand the value]

MAIN POINT (10-50 sec)

[Deliver your insight, tip, or story. Keep it conversational, like you're talking to one person]

CALL TO ACTION (50-60 sec)

[Follow for more like this? Comment your question? Link in bio?]

TECHNICAL NOTES:

- Look at camera (or slightly off-center)
- Speak clearly, slightly slower than normal
- Use natural hand gestures
- Smile at start and end

Script Formulas by Type

Video Type	Formula
------------	---------

Educational	Hook → 3-step framework → "Save this" CTA
Story	Hook → Build tension → Twist/reveal → Lesson
Personal	Hook → "I want to share..." → Vulnerability → Value
Promo	Hook → Problem → Solution → Offer → CTA

Recording Tips

- Do 3-5 takes - the first is always stiff
- Use the "chunk method" - record in 10-second segments
- Review before finishing to catch mistakes
- Add text overlays for key points (optional but recommended)

Platform Posting Checklist

Follow this checklist for each piece of content you adapt to ensure maximum reach and engagement.

Instagram Reel Checklist

- ☐ **Vertical video (9:16 aspect ratio)** Use 1080x1920 resolution for best quality
- ☐ **First 3 seconds hook** Preview the value or create curiosity in the opening frames
- ☐ **Add text overlays** Key words should appear on screen, not just in caption
- ☐ **Trending audio** Use sound that's trending in your niche
- ☐ **Caption with hook line** First line must hook them to read more
- ☐ **5-10 relevant hashtags** Mix popular + niche hashtags

LinkedIn Post Checklist

- ☐ **Professional but conversational tone** Write like you speak, not like a press release
- ☐ **Hook in first line** First 2 lines show before "See more" - make them count
- ☐ **Value-driven content** No clickbait, no "follow for tips" - deliver real insight
- ☐ **Line breaks for readability** Short paragraphs, lots of white space
- ☐ **Call to action** End with a question or invite comments

Platform Posting Checklist

TikTok Post Checklist

- ☐ **First frame is everything** Text overlay + hook in opening seconds
- ☐ **Speak to the algorithm** Include keywords in your speech that match search behavior
- ☐ **Hook in first 1.5 seconds** "In this video, I'm going to show you..." or "Most people don't know..."
- ☐ **Keep it under 60 seconds** Shorter videos get more completions = better reach
- ☐ **End with engagement bait** "Follow for more tips like this" or "Comment what you want next"

Twitter/X Thread Checklist

- ☐ **Thread opener hook** Something that makes them want to click "Show thread"
- ☐ **One tweet = one idea** Don't combine multiple points in one tweet
- ☐ **Use numbering** "1/" "2/" "3/" makes threads easy to follow
- ☐ **Include media** Add images, screenshots, or short videos to each tweet
- ☐ **End with a CTA** Invite replies, retweets, or profile link

Content Tracker

Use this tracker to monitor your repurposing output and ensure nothing falls through the cracks.

☐ **Weekly Content Tracker**

Week of: _____

Source Content	Date Created	Nuggets Extracted	Assets Created	Posted

Asset Checklist Per Source

Video Assets

- ☐ Short video (60s)
- ☐ Short video (30s)
- ☐ Clip for YouTube
- ☐ Clip for LinkedIn
- ☐ Teaser for IG/TikTok

Written Assets

- ☐ Carousel (8-10 slides)
- ☐ LinkedIn post
- ☐ Newsletter
- ☐ Twitter thread
- ☐ Blog rewrite

Goal Setting

Minimum viable repurposing: 1 long-form piece → 5 repurposed assets.
Stretch goal: 1 piece → 15+ assets. Track your output weekly and aim to increase the ratio over time.

90-Minute Execution Schedule

Follow this schedule to turn one piece of content into a full week's worth of assets.

0:00 - 0:05

Select Source Content

Choose one video, podcast, or blog post. Have it ready to work with.

0:05 - 0:20

Transcribe & Extract Nuggets

Get transcript, identify 3-5 key insights that can stand alone.

0:20 - 0:30

Generate AI Captions & Hooks

Use the AI prompts to generate 3-5 variations of each format.

0:30 - 0:55

Create Carousel & Script

Build one carousel outline, one video script. Batch similar tasks.

0:55 - 1:10

Record Video Clips

Record 2-3 short video variations using your script as a guide.

1:10 - 1:25

Write Email & Thread

Draft newsletter and Twitter thread versions of your content.

1:25 - 1:30

Schedule & Organize

Save all assets, add to content calendar, schedule posts.

Your Output Goal

5 short videos + 1 carousel + 1 newsletter + 1 thread + 5 social posts = 13+ pieces from 90 minutes

Quick Reference Guide

AI Prompt Quick List

- [1]

Caption Prompt: "Write a [platform] caption about [topic]..."
- [2]

Hook Prompt: "Generate 10 opening hooks using [technique]..."
- [3]

Script Prompt: "Write a [length] video script about [topic]..."
- [4]

Carousel Prompt: "Create a 10-slide carousel outline about [topic]..."
- [5]

Email Prompt: "Write a newsletter introducing [topic] to [audience]..."

Platform Specs

Platform	Best Format	Optimal Length
Instagram Feed	Carousel, Reels	30-90 sec video
TikTok	Vertical video	15-60 sec
YouTube Shorts	Vertical video	Under 60 sec
LinkedIn	Text post, Video	150-300 words
Twitter/X	Text, Thread	280 chars max

Pro Tips

Batch similar tasks together. Create all your hooks before moving to scripts. Record all videos in one session.

Common Mistakes

- Not having content ready before starting
- Trying to create too many formats
- Skipping the hook test
- Posting without scheduling
- Not tracking what works

Success Metrics

Track: Engagement rate, saves/shares, click-throughs, follower growth. Double down on what resonates.

Ready to Repurpose?

You now have everything you need to turn one piece of content into a full week's worth of assets - in just 90 minutes.

Next Steps

1. Print or save this guide
2. Select your first piece of content
3. Follow the 90-minute schedule
4. Track your output
5. Iterate and improve
